

Agustin Cristobo

Front end Developer

cristoboagustin@gmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

Address Bahía Blanca, Buenos Aires, Argentina

Summary

I am a Full Stack developer with a background in physics that helped me develop problem-solving skills. I have specialized in Front End and have knowledge in agile methodologies, Scrum, best practices, ESLint, and Atomic Design. I also have experience in Front End development with React and development tools. I enjoy learning new technologies and I am interested in learning mobile development.

Skills

Languages	JavaScript(ES6), HTML, CSS3
Libraries & Frameworks	React, Next, Redux, Tailwind css, Chart.js
Tools & Utilities	Git, ESLint, Sass, Figma, Trello, Notion

Projects

Mtg deckbuilder

- I used the mtg api and react with redux to manage the state of the application. Firebase for the login and data storage. Also used Sass for style. **Git repo** **Project**

Videogames

- This web app consumes an api and displays results, it also combines search filters. It has a section where the user can add new games to the db by filling a fully controlled and validated form. For the backend I used express with sequelize. **Git repo**

Final project

- This SPA is a course platform that was developed as part of my final project in the bootcamp.
- This platform has course search and filtering, a dashboard or administrator panel to manage users and content and also has a virtual assistant to answer questions in a way childs can understand.
- I helped to implement Redux Toolkit to make global states more maintainable and scalable. I also collaborated on implementing the Vercel SWR library to reflect database changes in real-time.
- I have also been able to reduce the complexity of data fetched from endpoints by implementing adapters.

Git repo **Project**

Education

Physics degree Universidad Nacional del Sur (incomplete)

march 2018 - march 2020

- Problem solving, Mathematical thinking.

Freecodecamp

nov 2021

- JavaScript Algorithms and Data Structures.

Henry bootcamp

nov 2022 - march 2023

- Fullstack web development.

Spoken Languages

- Spanish (native)
- English C2
Certificate

Hobbies

- Dungeons and Dragons dm & player
- Magic the gathering
